PROFILE

A results-driven Frontend Developer skilled in building scalable web applications and responsive business solutions. Proficient in React.js, TypeScript, and modern web development practices, with a focus on delivering high-quality, user-friendly solutions that meet business needs.

EXPERIENCE

FRONTEND DEVELOPER — SEVEN-UP BOTTLING COMPANY (PEPSICO)
2022 - PRESENT

Built and launched the current corporate website.

Developed key web applications to automate business processes, including:

- Customer Trade Portal
- Sales Backoffice & Payment Backoffice
- Intranet & Customer Service Backoffice

Improved operational efficiency by delivering scalable and user-friendly solutions.

Collaborated with cross-functional teams to deliver business-driven applications.

FRONTEND MOBILE DEVELOPER — COUTANA
2021 - 2022

- Built a mobile fashion app using React Native, enabling users to upload measurements and use AI for body scanning.
- Implemented a bidding system where fashion designers could bid on user-submitted style requests.
- Enhanced user experience by allowing users to choose designers based on ratings, price, and delivery timelines.
- Played a key role in the app's development lifecycle, from prototype to launch.

FREELANCE FRONTEND DEVELOPER — SELF-EMPLOYED

- Delivered responsive and scalable web solutions for small businesses and clients.
- Developed custom web applications using React.js and TypeScript.
